# CRUTCHES 4 AFRICA

## Our Interact District 5495's Signature International Service Project

Crutches 4 Africa began as the international project of the Mountain Foothills Rotary club, which is based in Evergreen, Colorado. Rotarian David Talbot, who managed to survive the initial onslaught of Polio, and overcame the prognosis that he would never walk again, lived an active and athletic life until his mid-50's. However, due to the debilitating effects of Post-Polio Syndrome, he has spent the past 10 years on crutches. As a professional photographer, while working in Uganda, David saw the crippling consequences among the people there who had survived the disease of Polio. With their disabilities and lack of mobility, they are often rejected in their communities and treated like dirt. Back in the States, David realized that many people have lightly-used, no-longer-needed mobility devices from a twisted ankle, ski accident, or operation. He saw crutches at garage sales, in dumpsters, and unfortunately in roll-off containers headed to landfills. He says, "I knew that I had to do something" — and this was the genesis of Crutches 4 Africa.

The eventual goal of Crutches 4 Africa is to collect **one million** mobility devices and distribute them in Africa. To date, more than **100,000** crutches, canes, walkers and wheelchairs have been distributed to Africans with disabilities. Crutches 4 Africa distributes mobility devices to whoever needs them — regardless of race, gender, tribe, age, or religion. Visit their website at [www.crutches4africa.org](http://www.crutches4africa.org) and learn more about their amazing work.

During the 2015-16 Rotary year, our Interact District developed a pilot project among our clubs, partnering with Crutches 4 Africa, and collected enough crutches, wheelchairs and other mobility devices to help fill a 20-ft. shipping container to ship to our international Rotary and Interact partners in Kenya. Building on that experience, our combined Interact clubs statewide have since then been collecting enough devices to continue to fill containers to ship to Kenya each year. In addition, the past two summers we have sent to Kenya our own **Arizona Interact Ambassadors Teams** to help with the distribution of these devices, and to provide other needed services.

**Our D5495 Interact District Council is inviting** and encouraging all Interact, Rotaract and Rotary clubs throughout the state to join in collecting enough mobility devices by our Interact Conference on February 23, 2019, to fill another container to ship to our Kenya partners. We also need the help of all of our Interact, Rotaract and Rotary clubs to raise the \$25,000 required to transport the mobility devices to where they are desperately needed in Kenya, and to cover the airfare, insurance and other in-country expenses entailed in sending our next Interact Ambassadors Team back to Kenya. **Help us change lives and make good things happen!** All contributions should be sent to Interact District Treasurer Jeanie Morgan, 1126 W. Eliot Road, Unit 1014, Chandler, AZ 85224. If you want tax deductibility for your contribution, make your check payable to the RI 5510 Foundation, with a notation "for Interact C4A." Otherwise make checks payable to Interact District 5495 Service.

**Crutches 4 Africa Mission Statement**  
*We toil together to enable those we may never see. Hobbled in life by illness, accident, or act of violence. Many are hopeless. The generous donations given to Crutches 4 Africa are the tools we use to help raise the hindered, to lift them from the dust, and help them on their way.*
